

Post -16 Travel Policy Statement by Cllr Gordon Jones

Cabinet Member for Children's Services, Education and Skills, Suffolk County Council

"I would like to make you aware that Suffolk County Council's Cabinet agreed the post-16 travel policy statement 2018/19 at its meeting on 15 May.

The policy statement is the result of the statutory consultation that Suffolk County Council is required to run every year and should not be confused with the results of the school and post-16 travel consultation for September 2019 policies.

No changes have been made to the service that young people will receive in the academic year 2018/19. However, following feedback, the policy has been updated to provide greater clarity in some areas."
